

## Z2 Speaker Stand

SR0317                      Z2 Silver  
 SR0320                      Z2 BLACK

Z Series high fidelity support systems are regarded by true audiophiles as the best way to enhance both sonic performance and the visual appeal of any hi-fi or audio visual system. Using the same exacting methods of construction as its multi award-winning predecessor, the Z Series is the perfect solution for consumers who simply want the best performance from their bookshelf speakers.

A slim dual woofer transitional two-and-a-half way design with identical 5.25" woofers and one-inch titanium tweeter that delivers refined sound with tonal, spatial and dynamic accuracy.

### Features

- Rigid Column Construction
- Excellent torsional rigidity
- Improved grounding with floor
- Spikes prevent flattening of carpet

## Z2 Speaker Stand

### Z2 Improvements:

- Column damping reduces 'ringing' and improves sound
- Top adjust floor spikes for quicker, easier levelling of stand
