

# IsoTek® | ULTIMATE

## EXCEEDING YOUR EXPECTATIONS

Following more than a decade of award-winning excellence, IsoTek has unleashed the Ultimate range – the final word in ultra-high-end power cleaning components. Revolutionary technology and unrivalled expertise have created two cutting-edge solutions able to completely transform the performance of any high-quality audio or AV system.

Super Titan dramatically improves upon the original Titan Direct-Coupled® design circuit. And then there's Genesis: the world's first ultra-low-distortion, multiple mains generator, which creates from a zero point a totally pure re-built mains sine wave.

Whatever your budget, IsoTek delivers the world's best power cleaning solutions for lovers of high quality sound.

**YOUR SYSTEM VALUE**

£50,000 +

# EV03 GENESIS

A revolutionary benchmark in clean-power technology for high-performance audio and AV systems, Genesis creates an entirely new, extremely low-distortion mains sine wave using multiple generators – a unique component, and uniquely effective.

- Removes both Common Mode and Differential Mode mains noise.
- Exceeds 85dB of noise reduction, extending down to zero Hz.
- Stabilizes voltage to 230V +/- 2%.
- Independent outlets – no outlets are connected together, stopping Differential Mode mains noise cross-contamination.
- 600W of totally clean power for front-end components.
- World’s first multiple mains generator.
- Unique ISIS isolation system – totally eliminates resonance from the sub-chassis of Genesis.
- Available with UK, EU, US sockets.

“The results show (Hi-Fi News Lab Report), overall distortion from the EV03 Genesis is less than a twentieth of that from the mains supply. This, by any measure, is an excellent result.”

“There’s no doubt that the Genesis can elicit a marked improvement in sound quality.”
