

Weatherproof

IPX4 Rated:
Excellent reliability and performance in high humidity environments

Low Profile
Circular Grille

Circular Grilles

Easy to Install
'Dog-Leg' Fixings

Shallow Depth
Less than 84mm

Qi50CW Speaker

5.25" Multi-Purpose
In-Ceiling Speakers

With 5.25" (133mm) cones and low profile grilles these multi-purpose speakers are the most compact in the range, designed specifically to offer excellent long term reliability and performance even in high humidity environments such as bathrooms. Possible by using a unique driver sealing construction to prevent steam and water ingress and a corrosion resistant aluminium grille, but still maintains its ability to clip magnetically into place.
Fully IPX4 (IEC 60529:2001) certified.

Qi65CW Speaker

6.5" Weatherproof Speaker

All models are moisture proof, with the Weatherproof models (shown right) being suitable for more extreme use. Stainless steel fixings and corrosion resistant aluminium grilles are utilised together with fully sealed drive units to ensure no water ingress. Conventional bezels and grilles are required in this application to prevent wind damage.
Fully IPX4 (IEC 60529:2001) certified.

Qi65CW ST Stereo Speaker

6.5" Weatherproof
Stereo Speaker

A single-stereo version is available for use in restricted spaces, where producing a full stereo sound field is not practical, for example in a wetroom, shower room or over a deck. Each speaker has two sets of terminals, separate 'left' and 'right' tweeters and an LF/MF speaker with a dual voice-coil.
Fully IPX4 (IEC 60529:2001) certified.

Qi45EW

4.5" Weatherproof
On-Wall Speaker

An attractive and compact wall mounted two-way speaker system ideally suited to both indoor or outdoor environments. Featuring a tough UV resistant ABS enclosure and aluminum speaker grille and designed to provide many years of trouble free service whatever the weather. Its diminutive dimensions and versatile mounting bracket make it both easy to install and the perfect solution to providing music in many applications; including outdoor dining and restaurant areas and indoor public spaces and conference facilities.
Fully IPX4 (IEC 60529:2001) certified.

Qi65EW

6.5" Weatherproof
On-Wall Speaker

Based on the very successful 6.5" (165mm) driver, this larger, more powerful, wall mounted two-way speaker is suited to both indoor or outdoor environments. The tough UV resistant ABS enclosure and aluminum speaker grille is designed to provide many years of trouble free service whatever the weather. Its diminutive dimensions and versatile mounting bracket make it both easy to install and the perfect solution to providing music in many applications; including outdoor dining and restaurant areas and indoor public spaces and conference facilities.
Fully IPX4 (IEC 60529:2001) certified.

Qi65LW Speaker

6.5" Weatherproof
On-Ground Speaker

The Qi 65 is the perfect speaker for those who want to create music in a landscaped environment. Finished in a granite effect texture and incorporating a wide range 6.5" woofer and 1" tweeter the Qi 65 can all but disappear from conscious view when positioned within outdoor areas such as bordered patios and alpine gardens. Its rugged glass reinforced polymer cabinet construction and weatherproof cable termination allow the Qi 65 to be located at ground level making it easy to locate and install with confidence.
Fully IPX4 (IEC 60529:2001) certified.
