

2000Ci

Centre Channel Speaker

A centre channel speaker with twin 100mm bass drivers and a 25mm ferro fluid high frequency unit to acoustically match and complement any of the 2000i Series. Removable rear port bungs means it can deliver its outstanding, seamless performance whether it is bookshelf, stand mounted or wall mounted by using the 2000WB wall bracket.

★★★★★ **EVERY MODEL IN THE Q ACOUSTICS RANGE IS A 5 STAR AWARD WINNER!**

Q Acoustics is now a completely FIVE STAR Loudspeaker Family.

Best traditional package up to £700, Awards 2011. This Award winner is a must-hear for anyone who wants an attractive and affordable 5.1 system that also works well with stereo and multichannel music

Technical Specifications

2000Ci Centre Channel Speaker

Enclosure type:	2way reflex
Bass Unit:	2 x 100mm
Treble Unit:	25mm
Frequency Response:	75Hz 22kHz
Nominal Impedance:	6Ω
Minimum Impedance:	4.4Ω
Sensitivity:	89dB
Recommended Power:	25-100w
Crossover Frequency:	2.7kHz
Dimensions H/D/W mm:	160 x 203 x 430
Weight:	6kg
Warranty:	5 years

2000WB

Wall Bracket

The 2000WB Wall Bracket is a unique 'Tilt and Turn' loudspeaker bracket adjusted via a single Allen bolt and allows the 2010i, 2020i and 2000Ci models to be mounted almost flat to the wall or angled down and/or sideways. Unusually, each bracket comes complete with a matching bottom plate that neatly covers all the terminals and cables, for a perfect visual finish.

It's simple to use, offers flexible positioning, hides the cables and looks great.

Features:

- 'Tilt and Turn' loudspeaker bracket
- Mount speakers almost flat to the wall or angled down and/or sideways
- Matching bottom plate that neatly covers all the terminals and cables for a perfect visual finish.

Review **Your Opinion** Tech Specs

For
Understated but smart looks; better cable management; big, detailed and cohesive sound

Against
For the money, very little

In only a few years Q Acoustics has become a serious force when it comes to – for the most part, affordable – speakers. So whether it takes stereo or home cinema form, a new range is a big deal.

This is our first look at the company's new 2000i 5.1 system. It replaces last year's Award-winner, so naturally we have high hopes...

The system comprises two pairs of 2010i speakers, a 2000Ci centre channel and the 2070Si subwoofer. There's a £50 price hike – but upgrades to justify the difference.

You'll have to look closely to spot the upgrades, but they're not to be downplayed.

Worthwhile design tweaks

Like the 2020i speakers, the 2010is have a new tweeter (including a new decoupling ring), a different material for the mid/bass driver and a revised crossover. The front baffle has had subtle tweaks, too.

A recessed plate on the bottom of the speaker means the speaker terminals are tucked away nicely and don't protrude from the rear of the speakers.

All the speakers here – with the exception of the subwoofer – can be wall-mounted, too, with Q Acoustics' new 'tilt and turn' bracket aiming to make it nice and simple.

But impressively, it's in the sonic department that the biggest leaps have been made. We simply don't expect the scale that this system can deliver for this sort of money.

The satellites are cohesive and exciting, dynamic and detailed, while the sub digs deep but stays in control. Music is similarly confident, the front pair of speakers proving capable of rhythm and good timing, while basslines are controlled but powerful. Vocals are clear.

Has the best got better? Simply put, yes.
