

# YAMAHA®

## RN-303D

**Providing rich, resonant sound from high-resolution sources, streaming services and smartphones – as only a Yamaha Hi-Fi component can.**

- Traditional Natural Sound concept / high sound quality circuit design
- 100W x 2 (40Hz-20kHz @ 8Ω, 0.02% THD)
- Supports 192 kHz / 24-bit high resolution digital to analogue converter
- MusicCast for audio enjoyment throughout your home
- Audio Sync options to enjoy synchronised audio from external sources
- Wireless music streaming from Bluetooth devices including smart phones and laptops
- Bluetooth output for wireless streaming to other Bluetooth speakers
- Airplay, DLNA, Tidal, Deezer, TuneIn internet radio and Spotify Connect.
- Gapless playback compatibility
- Digital audio input (coax + optical)
- A/B speaker selector, FM/DAB tuner and screw-type speaker terminals

DLNA : Version 1.5 (audio)

File formats : MP3, WMA, MPEG4 AAC, WAV, FLAC, AIFF, ALAC, DSD

Ethernet : Yes

Wi-Fi : Yes with Wireless Direct

Airplay / Bluetooth: Yes/Yes (SMC/AAC)

Minimum RMS Output Power :  
100W+100W: 8Ω,40Hz-20kHz,0.2% THD

Maximum Power :  
115W + 115W (4Ω, 1kHz, 0.7% THD)

Maximum Power :  
140W + 140W (8Ω, 1kHz, 10% THD)  
High Dynamic Power / Channel (8/6/4/2 Ω) 125 / 150 / 165 / 180W

RCA In / Out : 4 / 1  
Optical / Coax : 1 / 1

Headphone Out : Yes

Radio Tuner : FM / DAB

Standby Power Consumption : 0.1W  
Network standby+WiFi connected 1.9W

Dimensions (WxHxD) 435x141x340 mm  
Antenna Up (WxHxD) 435x200x340 mm

Weight : 7.2kg
