

# Metal Enclosures

## Pre-Construction Brackets

---

Achieving the perfect balance between value and performance is always a challenge. The DaVinci Group founders, sales team and dealers all worked together to create the Vanguard Dynamics line to provide the highest level of performance and value.

Unlike many competing products each Vanguard Dynamics product is designed by us from the ground up. This allows us to carefully select the best value components and apply our engineering experience of over 20 years in designing speakers so that every product is the best possible in sonic performance and reliability. Of course each of our speakers is backed by our **LIFETIME WARRANTY**.
